Request for Requirements, ORR 11254, A-10-988-181

25X6A

The following requirements are submitted:

1. How many workers were employed producing electrical machinery, (including turbines) and equipment at the ~~XXXXXXXXXX~~? The original report stated 5,000 total, but some are evidently not employed producing electrical items.
2. What was the output of electrical machinery (including turbines) and equipment in 1955 and 1956? State in both value and physical terms, if possible.
3. Evaluate the technology — quality of plant equipment, products, labor, management, raw materials and general efficiency of production — of the plant. Use comparisons when possible.
